Summary

I am a junior developer with nearly two years of product development experience in the tech industry. I have proven communication skills and a track record of quickly learning technologies. Located in Brooklyn, NY.

Projects

Team Leader - Command V Ninja | <https://cmdvninja.com/> | <https://github.com/garygz/commandve>

Web app for organizing snippets of code, features integration with Sublime Text, Chrome, and GitHub Gist

- Successfully completed one of the most ambitious capstone projects in Dev Bootcamp history
- Built entire front end in Angular.js while leading a team of three

Co-Creator - Nightly Nachos | <https://nightlynachos.firebaseio.com> | <https://github.com/realalexhomer/nightly-nachos>

Firebase/Angular app for curating nacho recipes in real time. A work in progress!

- Wrote object-oriented JavaScript to implement real time data binding.
- Overcame challenges related to asynchronous loading, writing modular Angular code, and dealing with bandwidth issues

UX/UI Designer - Rheti | <https://www.rheti.com>

Android app for creating Android apps through a WYSIWYG interface

- Increased user retention by more than 100% by spearheading a project to redesign Rheti's UX/UI
- Managed offsite development in Guatemala City, Guatemala. Both on-site and remote.

Relevant Experience

Rheti – Product Manager/ Director of Communications

Durham, North Carolina

June 2013 – July 2014

- Designed Rheti's graphics and website
- Organized a relaunch of Rheti which resulted in an increase of several thousand users over the course of a week
- Conveyed Rheti's message to investors, press, and shareholders
